Wake Technical Community College | Raleigh, NC

WORK EXPERIENCE

Photographer, Self Employed, Since May 2023

- Determined project goals, locations and equipment needs by studying assignments and consulting with clients or advertising staff
- Created and maintained an online portfolio to showcase photography work and attract new clients.
- Attend workshops or seminars related to photography techniques and technology advancements.
- Deliver quality products within deadlines established by clientele.
- Edited photos using Adobe Creative Suite and other software applications.
- Consult with clients to understand their needs and preferences for a photo shoot.

Carpenter, LAG Construction, Since Aug 2019

- Studied blueprints, sketches and building plans to prepare project layout and determine dimensions and materials required
- Inspected completed projects for quality assurance purposes before delivering them to customers
- Achieved cost savings by developing functional solutions to problems
